

## INF Vision trip with Peggy Franks

Are you interested in the work of INF, the church in Nepal, or want to see examples of how God is at work in the world today?

If so, come and experience Nepal and understand the work of INF with the help of Peggy Franks, who served as INF's Nursing Advisor for many years.

This exposure trip will visit Kathmandu, Nepalgunj and Pokhara with opportunities to attend Nepali church and visit INF projects, with time for rest and reflection.

**Dates: 20<sup>th</sup> Oct to 5<sup>th</sup> Nov 2018**

**Estimated total cost: \$3,300 incl. flights**

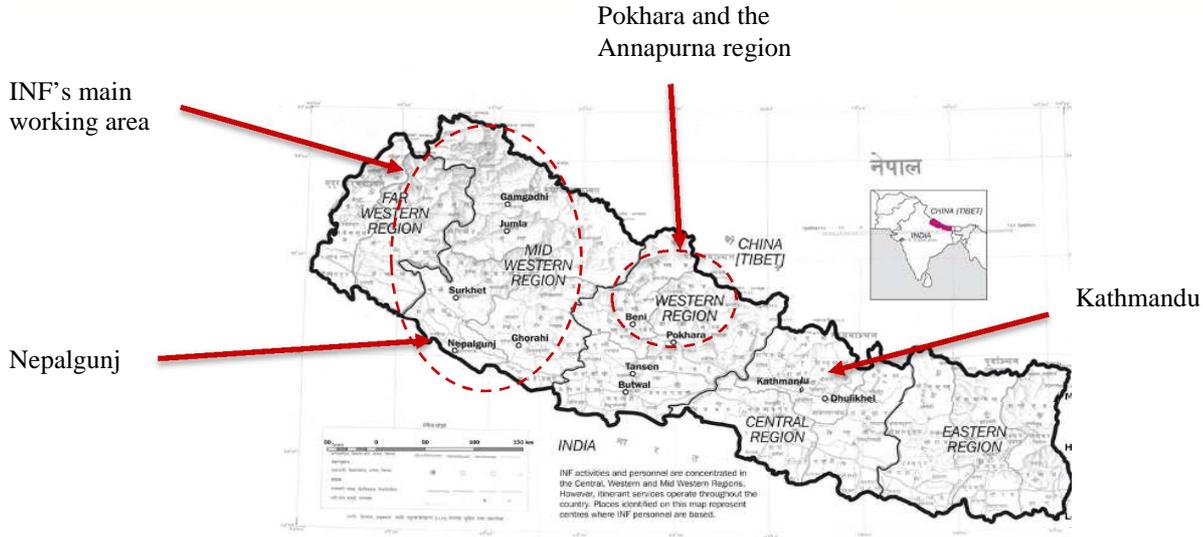

This trip is not just a relaxing holiday, but should challenge you spiritually, emotionally and maybe also physically. It is ideally suited to those with some experience of travelling in developing countries, are in good health, and who are willing to be out of their comfort zone. It is expected that most attendees will be aged between 50 and 70 years old.

Please contact the INF Australia office to express interest in going on this trip and to get an application form. The group size will be limited and you are encouraged to book early in order to save on airfares. You have the option to book your own flights and extend your stay in Nepal. The advertised price will be held until 1<sup>st</sup> June 2018, but is likely to increase after that.

Pre-trip orientation and post trip debriefing sessions will be held in Sydney and are strongly recommended.
